

***“I can build
what I want”***

**Tuesdays at
3:30pm &
Wednesdays at
11:30 am**

Free, open-ended play that will encourage children to think outside the box and dream up endless possibilities. Come join the fun! And block on!

RBC Foundation

**Rotary Club of Slave Lake
Public Library**

New and Improved Lego!

Tuesdays @ 3:30pm For ages 6-12.

Come challenge yourself and build something according to our weekly theme. One created masterpiece will be displayed for the week!

Wednesdays @ 11:30am For ages 2-5.

We will have the mega blocks out and have age appropriate building challenges to increase skills and sharpen abilities.

Benefits of Lego:

- Increases and develops a child's imagination
- Aids in the development of fine motor skills
- Encourages children to come to the library
- Attracts more boys to the library
- Creates social opportunities for children
- Helps develop problem solving skills
- Fosters creativity and imagination

Creativity is, perhaps, the most obvious of the benefits of learning with Legos. Children can toss aside the instructional kits and use only the Lego bricks to create anything their minds can imagine.

just imagine...
